

Foundation 2 contents

ISBN 978-0-521-68994-6

1 Ordering, adding and subtracting fractions 9

- A Review: fractions 9
- B Comparing (one denominator a multiple of the other) 10
- C Adding and subtracting (one denominator a multiple of the other) 11
- D Comparing (neither denominator a multiple of the other) 12
- E Adding and subtracting (neither denominator a multiple of the other) 13

2 Angles with triangles and parallel lines 15

- A Giving reasons: angles on a line, round a point, in a triangle 15
- B Giving reasons: vertically opposite angles 16
- C Angles from parallel lines crossing 18
- D Mixed questions 23

3 Multiplying and dividing fractions 25

- A Review: calculating with fractions 25
- B Fraction of a fraction 26
- C Multiplying fractions together 27
- D Reciprocals 28
- E Dividing a whole number by a fraction 28
- F Dividing a fraction by a fraction 30

4 Accuracy 31

- A Review: rounding 31
- B Deciding on sensible accuracy 32
- C Giving answers to a sensible degree of accuracy 34
- D Lower and upper limits of rounded measurements 35

5 Probability 37

- A Review: equally likely outcomes 37
- B Probabilities adding to 1 38
- C Using probability to estimate frequency 39
- D Relative frequency 40

6 Using a calculator 43

- A Order of operations 43
- B Division 43
- C Negative numbers 44
- D Brackets 44
- E Squares and square roots 45
- F Reciprocals 46
- G Checking by a rough estimate 47
- H Unitary method 47

Review 1 49

7 Circumference of a circle 52

- A Finding the circumference of a circle 52
(using $3 \times$ diameter as a rough rule)
- B Using π 54
- C Finding a diameter from a circumference 56
- D Checking that a circumference answer makes sense 57
- E Finding the perimeter of a shape that involves part of a circle 58

8 Working with expressions and formulas 60

- A Review: calculating 60
- B Review: simplifying 61
- C Substituting into expressions 62
- D Substituting into formulas 63
- E Forming and solving an equation from a formula 65
- F Forming and using formulas 66

9 Enlargement 68

- A Enlargement, angle and perimeter 68
- B Similar shapes 70
- C Enlargement and area 71
- D Enlargement and volume 72

10 Percentage increase and decrease 74

- A Review: percentage of a quantity 74
- B Percentage increase 75
(non-calculator methods)
- C Percentage decrease 76
(non-calculator methods)
- D Increase and decrease with fractions 77
- E Increasing using a multiplier 78
- F Decreasing using a multiplier 79
- G Finding an increase as a percentage 80
- H Finding a decrease as a percentage 81
- I Percentages in the real world 82

11 Solving linear equations 85

- A Review: simple linear equations 85
- B Review: problem solving 86
- C Equations that involve a fraction 87
- D Brackets in equations 88
- E Equations with x subtracted 89

12 Compound measures 91

- A Review: speed, distance and time 91
- B Hours and minutes on a calculator 92
- C Rates 94
- D Compound measures 96
(population density, fuel consumption, density)

13 Angles of a polygon 99

- A Angles of a regular polygon 99
(including inscribing regular polygon in circle)
- B Interior angles of a quadrilateral 101
- C Interior angles of any polygon 102
- D Exterior angles of any polygon 104
- E Mixed questions 105

14 Fractions and decimals 108

- A Changing between decimals and fractions 108
- B Recurring decimals 109
- C Multiplying decimals 109
- D Dividing by a single-digit decimal 111
- E Dividing by a two-digit decimal 112
- F Using a calculator to solve problems with decimals 113
- G Mixed questions 114

Review 2 116

15 Transformations 120

- A Reflection 120
- B Translation 122
- C Rotation 124
- D Enlargement 126
- E Reflection, translation, rotation and enlargement 128
(including congruence)

16 Indices 131

- A Index notation 131
- B Calculating powers 133
(priority in calculation, prime factorisation)
- C Substituting into expressions containing powers 135
- D Multiplying powers 136
- E Dividing powers 137
- F Simplifying expressions containing powers 138

17 Ratio 141

- A Review: ratio 141
- B Dividing in a given ratio 142
- C Ratios in the form $a:b:c$ 143
- D Converting between ratios, fractions and percentages 144

18 Area of a circle and related shapes 146

- A Area of a circle 146
- B Area of a shape that involves part of a circle 148
- C Mixed questions on circumference and area 151
- D Exact values involving π 152

continues >

19 Inequalities 154

- A Basic notation 154
- B Extending the notation and using a number line 155
- C Combined inequalities 157
- D Solving simple inequalities 158

20 Interpreting data 160

- A Ungrouped data: median, mean and range 160
- B Frequency tables: mode, median, range and mean 162
- C Grouped data: modal interval and median 163
- D Grouped data: estimating the mean 164
- E Continuous data, frequency polygon 166
- F Mixed questions 169

21 Map scale 171

- A Using a scale given as a ratio 171

Review 3 173

22 Changing the subject 176

- A Review: using formulas 176
- B Changing the subject of a formula such as $y = 5x - 7$ 178
- C Changing the subject of a formula such as $y = x + 2z$ 180

23 Coordinates in three dimensions 181

- A Identifying points 181

24 Drawing and using quadratic graphs 183

- A Review: linear graphs 183
- B Simple quadratic graphs 184
- C More complex quadratic graphs 186
- D Using a calculator 187

25 Units of area and volume 189

- A Units of area 189
- B Converting units of area 190
- C Converting units of volume 191

26 Trial and improvement 193

- A Searching for an exact solution to an equation 193
- B Searching for an approximate solution to an equation 194

27 Pythagoras's theorem 196

- A Squares on right-angled triangles 196
- B Using Pythagoras to find the hypotenuse 198
- C Distance between two points on a coordinate grid 200
- D Using Pythagoras to find one of the shorter sides of the triangle 201

28 Gradients and straight-line graphs 204

- A Gradient of a line 204
- B Working with the equation of a straight-line graph 206
- C Finding the equation of a straight-line graph 208
- D Negative gradient 210

Review 4 212

29 Statements about different types of number 215

- A Integers 215
- B Evens and odds 216
- C Multiples and primes 217

30 Loci and constructions 218

- A Points a given distance from a point or from a line 218
- B Points the same distance from two points or from two lines 220
- C Formal constructions with straight edge and compasses 222

31 Sequences 226

- A Finding a rule for the n th pattern in a sequence 226
- B Working out terms from the expression for the n th term 229
- C Finding an expression for the n th term of a linear sequence 230

32 Standard form 232

- A Multiplying by powers of ten 232
- B Index notation for powers of ten 233
- C Writing numbers in standard form 234
- D Interpreting your calculator display 235
- E Keying-in numbers in standard form 236

33 Volume and surface area of prism and cylinder 237

- A Finding the volume of a prism by counting cubes 237
- B Calculating to find the volume of a prism 239
- C Using a formula to find the volume of a prism 240
- D Surface area of a prism 241
- E Volume and surface area of a cylinder 242
- F Dimensions 244

34 Expanding brackets 246

- A Review: multiplying out expressions such as $x(x - 5)$ 246
- B Simplifying expressions that have like terms 246
- C Multiplying out expressions such as $(x + 1)(x + 3)$ 247
- D Opposite corners investigation 248
(multiplying out brackets to prove a conjecture from an investigation)
- E Multiplying out expressions such as $(x - 1)(x + 3)$ 249

Review 5 250

Answers 254
